### Marina Power Tool Lead

To supply power to tools and appliances used onboard when the vessel does not have its own shore power switchboard.

- ▶ Waterproof 10 Amp outlet, MCB or RCBO overload
- ▶ 10, 15 or 20 metre long lead, plus marina plug

Code	Description
<b>MARSUP10</b>	10 metre
<b>MARSUP15</b>	15 metre
<b>MARSUP20</b>	20 metre

Add an 'E' at the end of code to have the RCBO option provided.  
eg. MARSUP10E = Marina Power Tool Lead with an RCBO.

### Demo15 - Single Phase Kilowatt Hour Meter

A single phase electronic watt-hour meter that uses microelectronics techniques to accurately and directly measure 50Hz or 60Hz active energy consumption.

This product can be fitted to our Power Supply Box or Pillars to enable billing of each site for actual power usage.

**Code: DEMO15**

### Caravan Supply Adaptor

Power your motorhome from a domestic outlet.

- ▶ From 10 Amp domestic lead to 16 Amp connector - 1.2 metre lead
- ▶ Includes a 10 Amp MCB (Miniature Circuit Breaker) to protect the house supply. Services may be reduced in the caravan
- ▶ Suitable for indoor use only.
- ▶ Complies with AS/NZS 3820:2009+A1, Tested to AS/NZS 3760

**Code: CARSUPADA**

### CheckMate - Inline Power Meter

Suitable for campgrounds and holiday parks with existing power supply boxes. Add to an existing power supply box to allow you to measure and charge for electricity used.

- ▶ IP66 weatherproof and UV resistant enclosure with DIN-mounted kilowatt hour meter
- ▶ Simply install a single lead to sites where potential usage would be greater than that allowed for in the general site charge
- ▶ 16A plug IP44 & 16A connector IP67
- ▶ 10 metre heavy duty power lead

**Code: CHECKMATE**
